

### Remarks

Applicant has considered the Office Action mailed on April 13, 2007. Claims 1, 3-17 and 19-34 are pending in the present patent application. Of the pending claims, the Examiner rejected claims 1, 3-17 and 19-34. In response to the Office Action, Applicant amended claims 1, 17 and 33 to better define the patentable features of the claimed invention. No new matter has been added. The amendments to claims 1, 17 and 33 are not narrowing amendments and thus Applicant reserves all rights afforded under the Doctrine of Equivalents for these claims. No new matter has been added. Applicant requests further examination and reconsideration of the present patent application.

The Examiner rejected claims 1, 3-17 and 19-34 under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. Applicant amended independent claims 1, 17 and 33 in accordance with an agreement that was reached on April 23, 2007, between the Examiner and Applicant's representative, with respect to claim terminology. In particular, Applicant removed the word "near" from the phrase "in near real-time with low latency". As a result, Applicant believes that the §112, second paragraph rejection of claims 1, 17 and 33 has been obviated. Claims 3-16, 19-32 and 34 depend from claims 1, 17 and 33, respectively, and thus overcome the §112, second paragraph rejection by dependency. Accordingly, Applicant requests

that the Examiner reconsider and remove the §112, second paragraph rejection of claims 1, 3-17 and 19-34.

In view of the foregoing amendments and remarks, Applicant requests that the Examiner reconsider this application and allow claims 1, 3-17 and 19-34.

If the Examiner has any questions regarding the present patent application, the Examiner can call Applicant's attorney, David C. Goldman, at telephone number (518) 449 0044.

Respectfully submitted,

/David C. Goldman/
